

Courtesy Pay Opt-In or Opt-Out

An **overdraft** occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer overdraft protection plans, (linked to a savings account) which may be less expensive than our standard overdraft practices. To learn more, ask us about these plans.

This notice explains our **standard overdraft practices**.

What are the **standard overdraft practices** that come with my account?

We **do** authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Automatic bill payments

We **will not** authorize or pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- Everyday debit card transactions

We pay overdrafts at our discretion, which means we **do not guarantee** that we will always authorize and pay any type of transaction.

If we do **not** authorize and pay an overdraft, your transaction will be declined.
